Subject: Discussion of CA aquifer exemptions

Thanks Leslie for proposing Monday, looks like there isn't much overlap for both Ivan and I, maybe we could do the call on Friday? Let me know if this works for both of you.

We'd like to discuss the current status of aquifer exemptions from CA and specifically an approach taken by the state in the exemption we are currently reviewing, which has some legal and policy considerations for EPA.

Leslie could we use your (not so) secret call in line? We're going to be in different locations Friday morning.

Best,
Alexa
